

WEITI MIDWIVES

We are a team of experienced midwives who work together, to provide midwifery care 24 hours/7 days a week.

Midwives in the community provide Primary Care which includes antenatal care, labour and birth, and postnatal visits at your home for mum and baby.

We provide care for our clients at North Shore Hospital, Warkworth Birthing Unit, and attend homebirths. We work in partnership with you and the Secondary Care Obstetric team at North Shore Hospital when needed by you.

Our clinics are located at Orewa House and Silverdale Medical Centre.

MARY GALLAGHER - NZRN, BHSc.(Mid), NZRM. Pg Dip. Health Prof.Ed.

My career in health began as a Reg. nurse, before becoming a mother, then trained as a midwife 1999. I've worked as a midwife at North Shore hospital, as an LMC for 12 years and 6 years in Midwifery education. I really enjoy sharing the journey through pregnancy, birth and new parenthood with women and their families. I promote natural treatment options whenever possible and my passion is supporting breastfeeding. I have a small midwifery caseload and a part time position @ WDHB Tongue Tie Clinics.

KIM HALEY-GEORGE - Cert CBE, B HSc, B Mid, NZRM.

My mother was an obstetric nurse, and I grew up knowing that I shared her passion for working with mums and babies. I have 2 daughters, and whilst they were young I trained as a Child Birth Educator and taught antenatal classes for 5 years. I then completed my Bachelor of Health Science at Massey University and moved on to my Bachelor of Midwifery at AUT. I love my job as a midwife and have been working as a Lead Maternity Carer on the Hibiscus Coast since 2005, and have also worked as a staff midwife at Birthcare Parnell, and as a Childbirth Educator on the Hibiscus Coast, Warkworth and North Shore.

GAIL STOCKWELL - B BHSc. (Mid), NZRM.

I am a midwife and a mother of two young adults. I have been a midwife since 2005. During this time, I have worked in both the hospital and the community as an LMC. I feel honoured to be in a position to help women and their families through pregnancy and birth. I believe that pregnancy is a natural process and my goal is to help women to feel empowered to make their own decisions regarding their care. For some women hypnobirthing and a water birth in a birthing unit will be the right choice, for others it maybe a hospital setting and an epidural. Every woman is different as is every pregnancy and birth.

BARBARA BRINDSON - NZRN, NZRM, IBCLC

I qualified as a general nurse, maternity nurse and then as a midwife in the mid 1970s. After being a full-time Mum I returned to midwifery in 1991 working at National Women's, and then at North Shore hospitals. Since 2003 I have been a case loading midwife (KYM Team) at North Shore Hospital and since 2010 in self-employed practice. As a Board Certified Lactation Consultant I am particularly keen to assist and support mothers in their goal to fully breastfeed. In my practice as a midwife I enjoy working in partnership with women throughout their pregnancy journey, ensuring individualised care.
